

## Shower Shelves:

ST-Profile offers shower shelves made of stainless steel and powder-coated aluminum that are specifically designed for corner installation. The shelves are square and have asymmetrical edge lengths. They can either be integrated into the tile pattern when laying tiles or subsequently inserted into the joints of tiled walls.

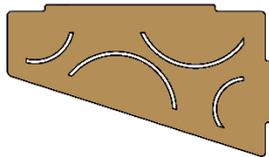

**Material:** Brushed stainless steel, powder-coated aluminium, anodized aluminium

**Dimension:** 280 x 165 mm

**Material thickness:** 2 mm

Stainless steel brushed

Alu gold anodised

Alu Jet black matt

Alu Jet black fine structure
